### Strategy

- Is a national focus for market surveillance sustainable in the long term?
- Are there elements that could be operated more effectively at EU level?
  - Strategy
  - Tools
  - Communication

### Market surveillance more effectively at EU?

- Combine plans of individual member states?
  - Does the combined list of project has a value for members / business?
- What should the period be for this plans? (1 January 2010?)
- Should a project plan address topics like:
  - Risk analyzes, Target groups, Efforts (joined and or each member state for itself), Inspection together or not?

Market surveillance more effectively at EU?

- Project plan:
  - Coordination of project plan?
  - Criteria for the coordinator?
  - Issues of the results?
  - Minimum results?
  - Responsibility?
  - Costs?
- Communication:
  - Publicizing projects lead to maximum transparency, but also to 'tactical behaviour' of business?

Market Surveillance Conference 23 – 24 October 2008 - The Netherlands - Verispect - Hermine van Rij 4
