

Gravity information Ireland

Gravity values have been identified as: 9814000m Gal (9.814 ms^{-2}) with maximum variation of +100m Gal (0.001 ms^{-2}) to -200m Gal (0.002 ms^{-2})

G Value: 9.814 ms^{-2} + $.001\text{ms}^{-2}$
 - $.002\text{ms}^{-2}$

However, these values are not prescribed by legislation.

The Irish implementing regulation does not make it an offence to use an instrument outside of its marked weighing range. No classes are designated for a particular application.
