

The European Commission starts an enquiry on Directive (EU) 2014/31 (NAWID) and Directive (EU) 2014/32 (MID) with the objective to evaluate if the current form of these directives creates unnecessary barriers for economic operators and regulators while implementing innovative solutions for actual and future societal and economic challenges. The WELMEC community seeks to actively participate in this exercise by providing inputs and food for thoughts.

On the morning of November 23rd, WELMEC organises a webinar for exchanging views on the “fit for purpose” question for the NAWID and MID.

Several members of the WELMEC community will take the virtual floor for presenting their view on the situation.

09:30 – 09:45	Welcome
