

THE FOLLOWING IS FOR INFORMATION ONLY

In Latvia, the gravity zones for NAWIs are not regulated. Our manufacturers and metrology laboratories use the actual value of the places. For your information, please find enclosed a list of gravity values in Latvia.

Nr. p/k	City	Gravity value (m/s <sup>2</sup> )
1.	Rīga	9,81650
2.	Aluksne	9,81663
3.	Ventspils	9,81677
